Professional Summary

Aspiring Frontend Developer with hands-on experience in building responsive web applications using React, HTML, CSS, and JavaScript. Proven ability to deliver user-friendly interfaces and optimize performance, achieving improved page load times and enhanced user engagement. Strong foundation in modern web technologies and UI/UX best practices.

Education

Bachelor of Technology, KCG College of Technology

CGPA: 8.32

Relevant Coursework: Web Development

HSC – 88.5%

G K Shetty Hindu Vidhyala matriculation Higher Secondary School

Technical Skills

Languages: C , python, JavaScript, HTML, CSS, React.js

Tools and platform : Git , github, Vscode

Worked : Frontend, Backend

Projects

AI-Based Smart Parking System

Developed a smart parking management application that helps users find and reserve available parking slots. Implemented intelligent parking-slot recommendation to reduce parking search time and improve parking efficiency. Designed for real-world applications such as shopping malls and IT companies, with centralized parking and booking management.

TrustLens AI:

Developed an AI-based insurance claim verification system to detect potentially fraudulent claims through image analysis and document validation. Implemented automated claim analysis to identify inconsistencies and improve the accuracy and efficiency of the insurance verification process. Designed to reduce manual verification effort and support faster claim processing.

AI-Based Clinical Decision Support System for Early Prediction of Fetal Hypoxia using Cardiotocography (Ongoing):

Developing an AI-based clinical decision support system to predict fetal hypoxia at an early stage using CTG data. Applying machine learning techniques to analyze fetal heart rate and uterine contraction patterns for early

risk identification. The system aims to support healthcare professionals in making faster and more informed clinical decisions.

Internships / Experience

Data Science Intern - Big Si Bucks Innovation Pvt Ltd

Data Science Intern - DLK Software Solution

Certifications

- NEXATHON 2025 — KCG College of Technology
- Infosys Springboard — INFOSYS
- Programming (C, C++, Python) — Neon Academy, Chennai
- Cisco Networking (Introduction To Modern Ai) & Apply Ai (Analyze customer Ai)
- NPTEL – Cloud Computing

Achievements & Extracurriculars

- Participant in Hackathon'25
